Croma

FIAT

The Italian welcome: Naturally warmer.

One look will confirm it: The new Croma is inspired by the Italian passion for style and comfort. For those who want to get behind the wheel of a truly Italian car of uncompromised quality, the waiting is over.

Extra space as if by magic.

The new Croma's luggage compartment isn't just big, it's also extremely versatile. The 500 litres of space increases to 1610 litres when the rear seats are folded. And the magic touch? An ingenious double luggage compartment that creates a secret space for valuables and a 'new' floor at seat level for stowing luggage on a flat surface.

Double luggage compartment that creates extra space.

Fold-down front passenger seat.

A car defined by space, strength and

Designing the new Croma, Giorgetto Giugiaro has drawn a fine shape that is muscular and energetic; compact yet spacious. This is a car with presence, packed with useful details.

nd elegance.

Natural light, wherever you look.

Great modern car design maximises natural light. It enhances every trip and adds to your comfort and safety, giving greater all round visibility. With its huge two panel SkyDome sunroof, the new Croma is simply a brighter place to be.

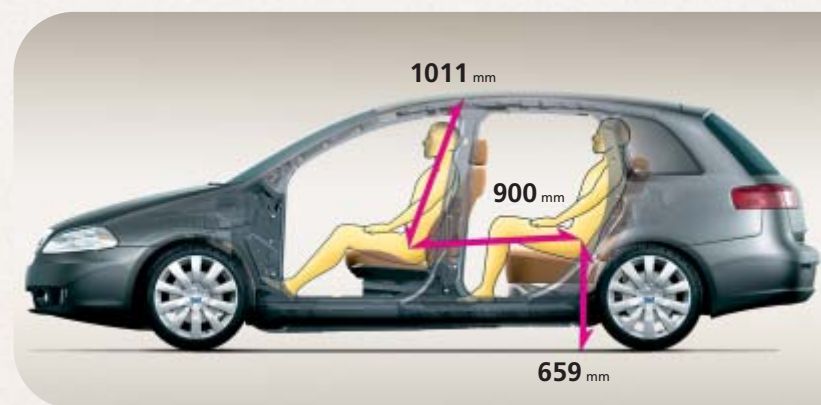

Add the unique SkyDome sunroof and you get five square metres of light to help you enjoy the new Croma's innovative interior.

Styling shaped by your needs.

Space, light and refinement are at the heart of on-board comfort and at the core of the new Croma. 100 mm higher than its rivals, it provides exceptional room, accessibility and a commanding view. Safety also rises above the rest, with ABS and 7 airbags, including the new driver's knee airbag, as standard across the range. You can also benefit from ESP with ASR, MSR and hill holder depending on your chosen model and specification. Travel in Italian style, space and safety.

Higher seating and exceptional space for everyone.

The balance of power and comfort.

The new Fiat Croma features an extraordinary new diesel engine: the 5 cylinder, 200 bhp, 2.4 20v MultiJet. Packed with Italian ingenuity, it balances class beating power, refinement and economy, with minimal environmental impact. Other engine options include the 120 bhp and 150 bhp MultiJet and a 147 bhp 2.2 16v petrol unit.

All are Euro 4 compliant and match the new Croma's qualities perfectly.
