TOC Zone: 49 - Lighting and Horns

Component/Path: Headlamp
Headlamp Motor

Info Type: 27 - Diagrams

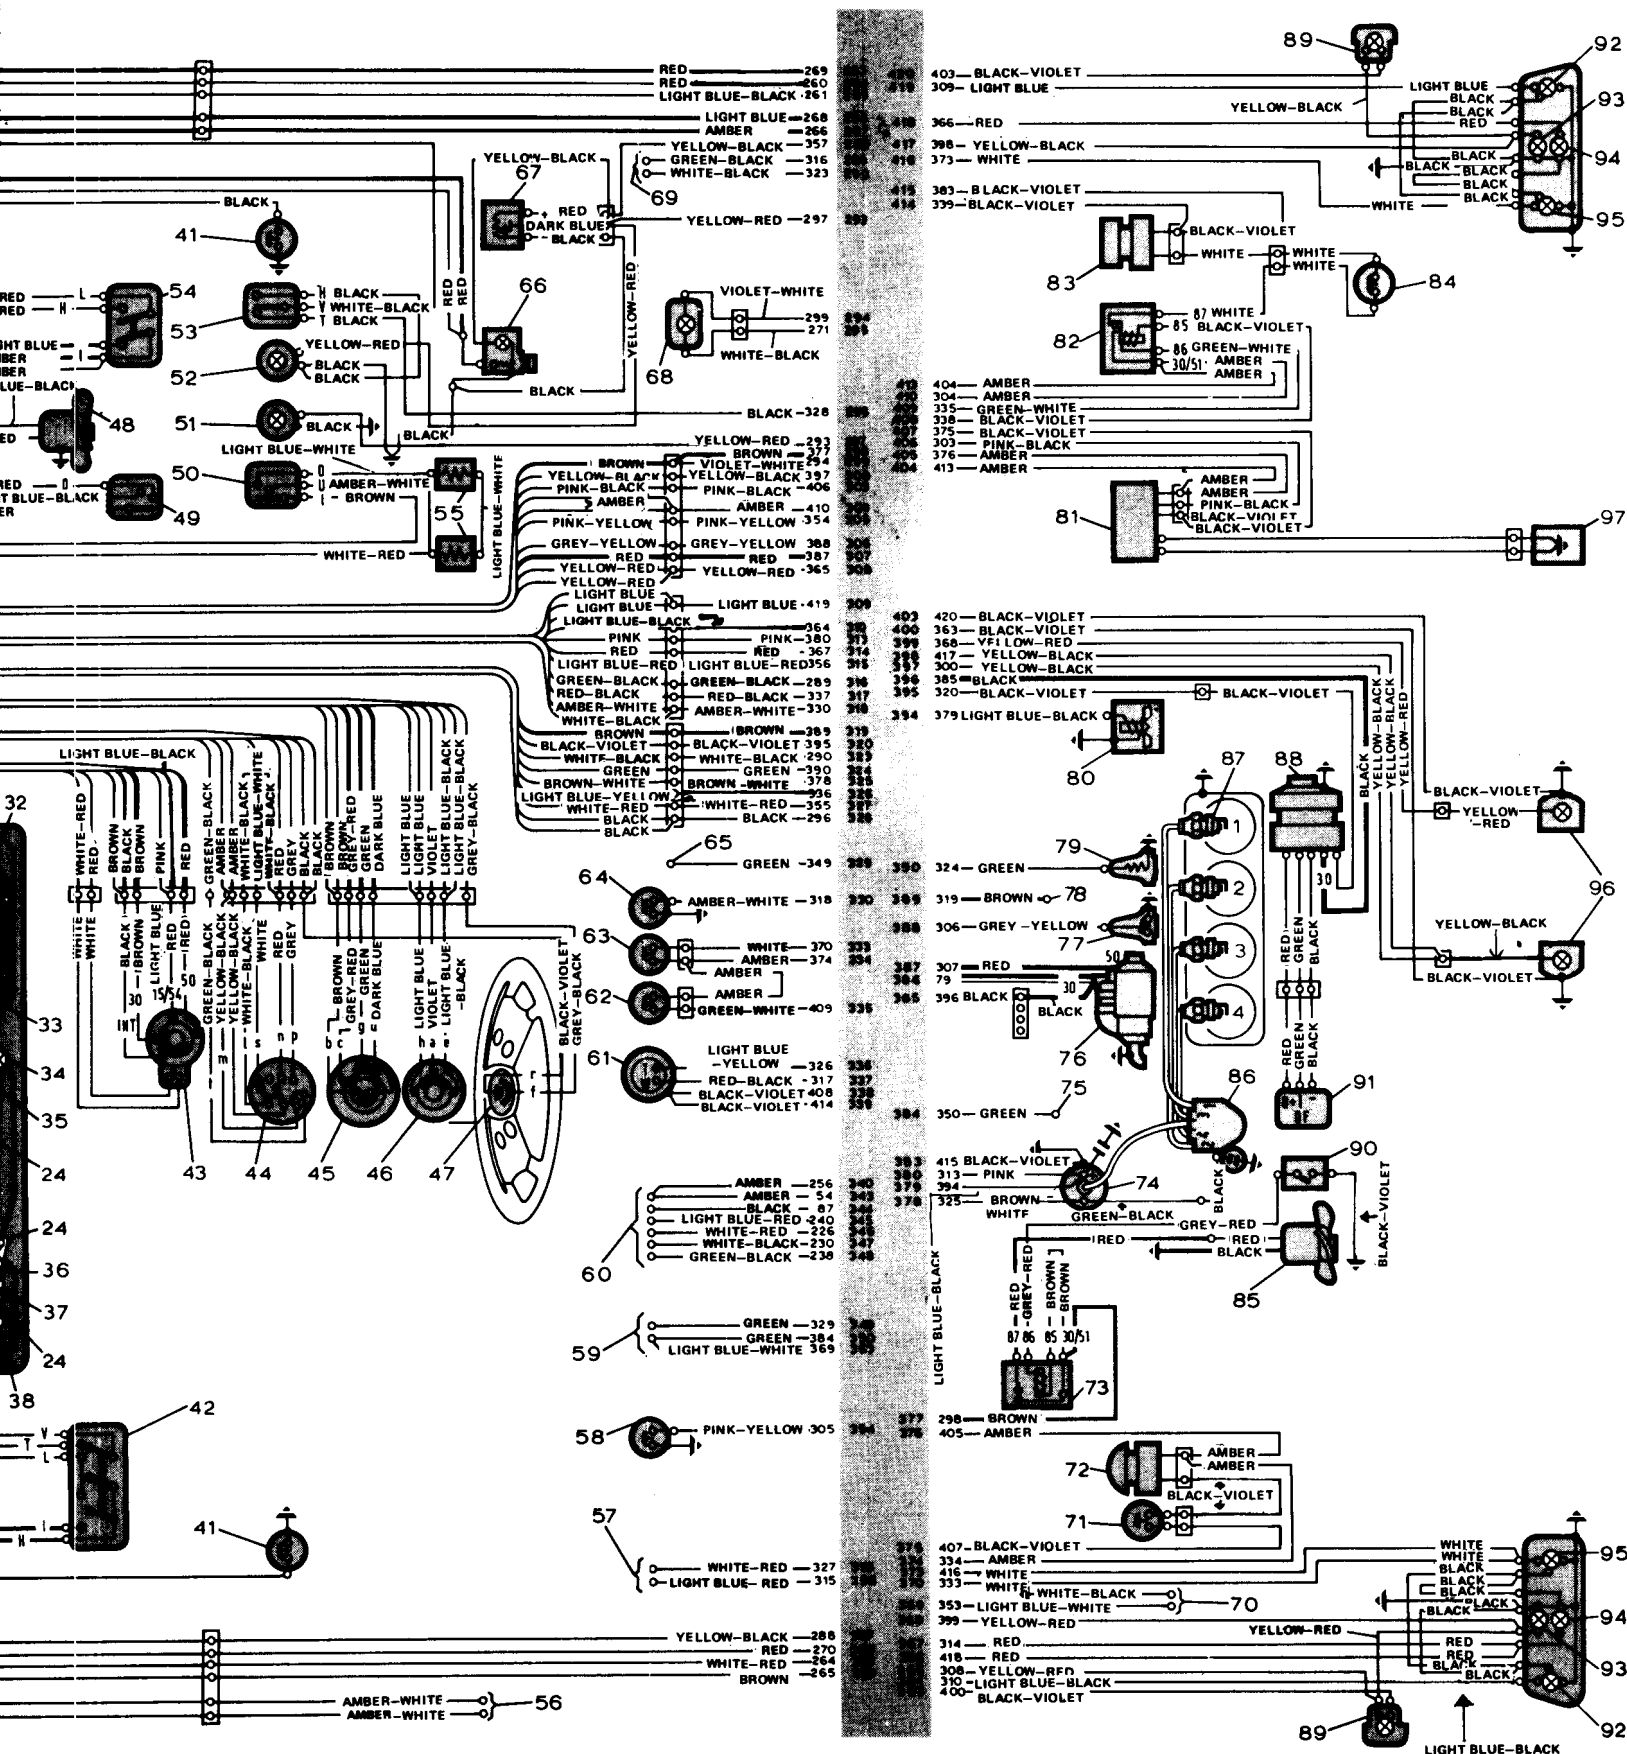

Additional Info:

Problem: headlight motor wire diagram and car complete wire diagram

Notes 815-621-6774 robrert .

If the data received does not meet your needs please let us know

Thank You for choosing ALLDATA

1. Front turn signal lights
2. Front parking lights
3. Headlights (high and low beams)
4. Headlight motors relay
5. Horns relay
6. Horns
7. Engine fan motor relay
8. Engine fan motor
9. Engine fan motor thermostatic switch
10. Headlight motors
11. Cables, preset for fitting back window demister relay
12. Front side marker lights
13. FASTEN BELTS buzzer
14. Flasher, vehicular hazard warning signal
15. FASTEN BELTS buzzer relay
16. Fuses
17. Windshield wiper motor
18. Flasher, turn signal lights
19. Windshield washer pump
20. Sending unit, low brake fluid level indicator
21. Delay circuit for FASTEN BELTS indicator and buzzer
22. Stop lights switch
23. Battery
24. Instrument cluster connectors
25. Low brake fluid level/Hand brake ON indicator
26. SLOW DOWN indicator
27. Instrument cluster lights
28. Turn signal indicator (flashes green)
29. FASTEN BELTS indicator (red)
30. Vehicular hazard warning signal indicator (flashes red)
31. Parking and tail lights indicator (green)
32. High beams indicator (blue)
33. Engine tachometer (electronic)
34. Fuel reserve indicator (red)
35. Fuel gage
36. Engine coolant temperature gage
37. Battery charge indicator (red)
38. Back window demister indicator (red)
39. Insufficient oil pressure indicator (red)
40. Oil pressure gage
41. Jamb switches for courtesy light
42. Lighting and headlight motors switch, 3-position
43. Steering lock ignition switch
44. Windshield wiper/washer 3-position switch
45. High/Low beams change-over and flashes switch
46. Turn signal switch
47. Horns control
48. Heater fan 2-speed motor
49. Heater fan 3-position switch
50. Instrument cluster lights 3-position switch
51. Ideogram illumination optical fiber light source
52. Ideogram illumination optical fiber light source
53. Courtesy light switch
54. Vehicular hazard warning signal switch, 2-position
55. Ballast resistor, instrument cluster lights intensity
56. Cables, preset for fitting back window demister switch
57. Cables, preset for fitting LH loudspeaker
58. Button switch on driver's belt
59. Cables, preset for fitting pressure switch on compressor (air conditioned cars)
60. Cables, preset for fitting car radio
61. Sending unit, fuel gage
62. Gear-engaged signal button switch
63. Back-up light switch
64. Hand brake ON signal switch
65. Cable, preset for fitting temperature control knob (air conditioned cars)
66. Cigar lighter/housing indicator
67. Ideogram lighting potentiometer
68. Courtesy light
69. Cables, preset for fitting RH loudspeaker
70. Cables, preset for fitting fast idle electrovalve (air conditioned cars)
71. Switch on 4th gear for electrovalve 72
72. Electrovalve cutting out ignition retardation
73. Carburetor cooling fan motor relay
74. Ignition coil
75. Cable, preset for fitting air conditioner compressor
76. Starter motor
77. Sending unit, insufficient oil pressure indicator
78. Cables, preset for fitting back window demister
79. Sending unit, engine coolant temperature gage
80. Idle stop solenoid
81. Catalytic converter electronic control unit
82. Relay for electrovalve controlling diverter valve
83. Electrovalve controlling diverter valve
84. Thermostatic switch for electrovalve 83
85. Carburetor cooling fan motor
86. Ignition distributor
87. Spark plugs
88. Alternator
89. Rear side marker lights
90. Thermostatic switch, carburetor cooling fan motor relay
91. Voltage regulator
92. Rear turn signal lights
93. Tail lights
94. Stop lights
95. Back-up lights
96. License plate lights
97. Catalytic converter thermocouple

EXPLANATORY NOTE

Each wire section ends in an identification number.
Actual wiring can be traced by looking for the wire number in the adjacent shaded strip, where wire path is resumed.
