EU-Mobile Customer Protection - Payment Information

In order to complete the transaction, the payment must be made by Bank Wire Transfer. Paying by wire transfer is easy and quick. Your money can be wired to our bank account from any bank. Bank-to-Bank money wire transfer is considered by far the safest method for international payment. Unlike other international transactions, the sending and receiving parties are obliged to present their individual identification. In addition, since the wire transfers are done through a highly reliable and secure network, the message that is being transmitted from one bank to the other is encrypted.

Your business partner also requested to use EU-Mobile Vehicle Protection Program. The EU-Mobile vehicle protection program offers a set of services that build protection in every step of the vehicle buying process. The entire service provided by Shiply is meant to protect both seller and buyer involved in a transaction. The process is very simple and it provides total protection to both parts.

Eu-Mobile provides 100% protection for this transaction. Our security measures are constantly reviewed and modified given the globally evolving circumstances. Our main and constant priority is the safety of our customers.
